

This is a photo of Raymond, son of Jens aka Jim Borglum and Gertrude. He died suddenly, but Gertrude never wrote in her albums why or how he died. I will send more of this side of the family. I have the entire album that Gertrude had of her family. Raymond grew up as an only child. Was trained as a pilot. He actually disappeared during a flight between Texas -where he was stationed- and Florida. They were doing exercises in Florida, but were headed back on a flight to Texas and the plane disappeared and was never found. There were 4-5 people at least on the plane. My mom, May and Gertrude wrote a lot over the years. May and Raymond also wrote a lot during WWII. Mom, in fact, went down to Texas during part of the war with some friends. Not sure if she went there to get to know Raymond at that time, but know they spent some time together from the letters which my mom kept.
